EVALUATION AND BASIS OF AWARD

1. Grading System:

Grade is the transformation of marks secured by a student through Continues Assessment and University Assessment in a course. Grade point is the weightage allotted to each grade depending on the range of % marks awarded in a course. The grade points are the numerical equivalent of letter Grade as given below:

Table :- Conversation of Marks in to Grade Points in Credit System							**Conversion of CGPA in to Grades shall be as follows**					
Sr. No.	**Grade Abbreviation**	**From**	**To**	**Status**	**Grade Point**	**Description**	**Sr. No.**	**Grade Abbreviation**	**From**	**To**	**Status**	**Description**
1	O	90	100	Pass	10.00	Outstanding	1	O	7.5	10	Pass	First Class with Distinction
2	A+	80	89.99	Pass	9.00	Excellent	2	A	6.5	7.49	Pass	First Class
3	A	70	79.99	Pass	8.00	Very Good	3	B	5.5	6.49	Pass	Second Class
4	B+	60	69.99	Pass	7.00	Good	4	C	4	5.49	Pass	Pass Class
5	B	50	59.99	Pass	6.00	Above Average	5	F	0	3.99	Fail	Fail
6	C	45	49.99	Pass	5.00	Average						
7	P	40	44.99	Pass	4.00	Pass						
8	F	0	39.99	Fail	0.00	Fail						

The Semester Grade Point Average (SGPA) is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$SGPA\ (S_i) = \Sigma\ (C_i \times G_i) / \Sigma C_i$$

Where, Ci is the number of credits of the ith course Gi is the grade point scored by the student in the ith course.

The Cumulative Grade Point Average (CGPA) is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a Programme, i.e.

$$CGPA = \Sigma\ (Ci \times Si) / \Sigma\ Ci$$

Where, Si is the SGPA of the ith semester Ci is the total number of credits in that semester. The SGPA and CGPA shall be rounded off to the nearest 2 decimal places.

2. Formula for conversion of equivalent percentage of CGPA:

Percentage Marks = (CGPA – 0.5) × 10.
